

Q Define the following terms :

(a) Vision : it is a statement that outlines the long-term aspirations and desired future state of an organization or individual. It provides a clear picture of what success looks like and serves as a guiding star for strategic planning and decision-making. In a broader sense, vision can also refer to the ~~capability~~ ability to think about or plan the future with imagination and wisdom. It helps in setting a direction and purpose, motivating individuals and organizations to ~~strike~~ towards their goals.

(b) Mission :- A mission is a statement that defines the purposes and focus of an organization or individual. It describes what the organization does, who it serves, and how it serves them. Essentially, a mission statement answers the questions "what do we do?", "who do we do it for?", and "How do we do it?".

ex: A company's mission might be to provide high-quality products that improve the lives of their customers, or a non-profits mission might be to support and empower underprivileged communities.

- c. Objective :- Objectives are specific, measurable, achievable, relevant and time-bound (SMART) targets that an organization or individual aims to achieve. They break down broader goals into actionable steps and provide a clear path to achieving the mission and vision.

The essence, objectives are the detailed steps or milestones that helps in reaching a larger goal.

For ex: if a company's goal is to become a market leader, its objectives might include increasing market share by 10% within a year, launching three new products and expanding into two new regions.

- (D) Goals :- A goal is an idea of the future or desired result that a person or a group of people envision, plan and commit to achieve. Goals represent the decisions we make and the commitments we take in order to reach attainment, break some bad habits, adopt useful habits or achieve more in different areas of life.

Goals can be categorized based on time and scope.

- Short-term Goals :- Achievable in the near future, such as within days, weeks, or months.
- Long-term goals :- Achievable over a longer period, such as years.
- Life-based Goals :- Related to personal development, career, education, health, family, relationships, spirituality and social life.

(e) Strategy :- It is a comprehensive plan or set of actions designed to achieve a long-term or overall goal. It involves making deliberate choices & trade-offs to create a unique and valuable position. here different types of strategy are -

- Goal-oriented
- Long-Term planning
- Resource Allocation
- Competitive Advantage

for eg, in business, a company might develop a strategy to become the market leader by focusing on innovation & customer service.

In military terms, strategy involves planning and directing operations to achieve victory in a conflict.

(f) Policy :- It is a set of principles or guidelines that govern decisions and actions within an organization. government or individual context.

- Guidance
- Intent
- Implementation
- Decision-Making

for example: A company might have a privacy policy to protect customer data, or a government might implement an economic policy to manage the country's economy.
